

What is claimed is:

1. A method of applying a plurality of nanoparticles to a surface, said method comprising the steps of:
  - (a) providing a surface;
  - (b) providing a composition comprising a plurality of nanoparticles; and
  - (c) printing said nanoparticles onto said surface using an inkjet printer.
2. The method of Claim 1 wherein said surface is a soft surface.
3. The method of Claim 1 wherein said surface is a hard surface.
4. The method of Claim 3 wherein the ink jet printer comprises at least one spray nozzle, and said at least one spray nozzle is movable with respect to said hard surface.
5. The method of Claim 1 wherein said nanoparticles comprise photoactive nanoparticles.
6. The method of Claim 1 wherein said nanoparticles comprise non-photoactive nanoparticles.
